Odell Victory Over Platt Insures Democratic Success in New York.

## THE WEST IS STIRRED UP

Workingmen Revolting From Republican Rule and Will Vote for Parker.

(From our Regular Correspondent.) WASHINGTON, D. C., Sept. 16.-If there were any Democratic fears and Republican hopes regarding the result of the election in New York State, it is believed they have been completely dispelled by the action of the New York Republicans yesterday in nominating Frank W. Higgins for the governorship. Republicans. as well as Democrats, admit that the selection was made by Governor Odell, who dominated the convention. There was a fight on before the convention for the nomination of Tim Woodruff, and his name was actually presented to the convention, but afterwards withdrawn. Odell, Governor of the State, and chairman of the State Republican Committee, was determined to rule or ruln, and he slew old Senator Platt without a qualm. Many Republicans of New York are quoted to day as having said that they will not go into the fight for Higgins. If the Democrats put up a good man for the governorship, he ought to find it easy traveling to the State house at Albany.

"Wearing the Gdell tag will just about vention, but afterwards withdrawn. Odell

"Wearing the Gdel tag will just about queer the Republican nominee for Governor of New York," said Congressional Chairman Cowherd this afternoon. "We feel no doubt whatever now over the result in New York State. I have not doubted that Democrats would carry the Citics and the nomination of Higgins, and Etate, and the nomination of Higgins, and

Etate, and the nomination of Higgins, and the resulting factions among the Republicans makes Democratic success even more certain."

It was the opinion of everybody at Democratic headquarters that Democratic chances had been greatly improved by the nomination of Higgins. The only feat is that the Democrats may not make a wise that the Democrats may not make a wise selection in nominating a gubernatorial candidate. The State Convention will meet at Saratoga next Tuesday.

Harmony in New Jersey.

The thorough harmony that characterized the convention of New Jersey Democrats yesterday, which nominhted Charles C. Black to the governorship, is in strong and most gratifying contrast to the scalping orgy of the Republicans at Saratoga. Black was the unanimous choice of the convention, and his nomination was by acclamation. He is not the personal friend of ex-Senator Smith, who is not popular with New Jersey Democrats, and whose return to active leadership is not looked on with favor by a majority of the Democrats of the State. The harmony which demonstrated that the party is united in New Jersey, the high character of the nominee, and his freedom from all entangling alliances, are believed to be pretty good guaranties. Western Republicans Scared.

Western Republicans Scared.
The Democrats of Illinois and Indiana have gone to work with so much vim and determination that the Republicans have become alarmed. The party managers have gotten to work among the workingmen of the cities and towns of those Slates and the opposition has been ratified by the inroads which have been made. Speaker Cannon himself was the first man to note the value of the work speeches recently he has told the Republicans plainly that the success of the Republican ticket in both Illinois and Indiana was in jeonardy. The great gains made by the Democrats in the towns and cities of Maine at the recent election show that the workingmen are thinking. They have seen the cost of everything that goes to make a full dinner pail increase enormously in price in five years, with either no increase in the price paid for their labor, or an absolute reduction. The Democratis are at work among this class. It is claimed that the workingmen of the city of Chicago have been won over almost to a man, and that the working classes of the price paid for their labor, or an absolute reduction. The Democratis have not been hoping to carry Illinois, but they are beginning to think there is not so much doubt about Indiana going Democratic.

In the Second West Virginia.

An unforeseen complication appears to be about to arise in the campaign in the Second West Virginia District. It is reported that Judge John Jay Jackson is about to retire from the West Virginia Pistrict. It is reported that Judge John Jay Jackson is about to retire from the West Virginia Federal bench, and that the President will appoint Representative Alston G. Dayton, of the Second District, to succeed him. Stewart Walker, the Deniocrate nominee for Congress in the Second District, seems about to retire Dayton, so something has to be done. It has been understood for some time that Dayton would succeed Judge Jackson. Judge Jackson was appointed by Mr. Lincoln in 1863, I think, and he has sat upon the bench continuously ever since. He is now well past eighty years of age, and is the oldest Federal judge, and has served longer than any other in the United States. If he should retire now, and Dayton be appointed to succeed him another candidate would have to be put up in the Second District, which would not be af all to the liking of Mr. Walker, who believes he has the present representative whipped.

# BISHOP GALLOWAY IN THE FAR EAST.

The Times-Dispatch takes pleasure in making the notable announcement that a special arrangement has been made with Bishop Charles B. Galloway. D. D., LL. D., to furnish a series of letters dealing with problems in the Far East incident to the Japanese-Russian war.

Bishop Galloway is one of America's foremost divines, and for the past twenty years has been a leading figure in the Methodist Episcopal Church, South. He is now presiding over the mission conferences of his church in China, Japan and Korea, and as this is his third trip to the Far East he is admirably equipped to write on the subjects of international importance incident to the conflict now in progress: Bishop Galloway's first letter deals with the martial spirit of the people of Japan. This will be printed to-morrow.

We are to note that gold here is in the ratio of 4.9 to the total currency, while in Great Britain it is 67; in France, 62.12; in Germany, 68.00; in Russia, 87.7i, and in Austria-Hungary, 88.00. In all these countries combined, gold is 68.6 to the total circulation. If the world's experience is to be accepted our gold is not in excess, although our whole volume of money may be too great.

"That we have the gold standard in this country to-day is not due to the Republican politicians who tried to betray it," says Mr. Cockran, but to the English government, that refused to be a party to the betrayal."

Mr. Cockran challenges the State Department to produce the correspondence hetween the Wolcott commission and the department, and declares that if the challenge is accepted, the nominee and Republican spellbinders would not attempt to say much more of the loyalty of the Republican party to the gold standard. The statement will attract wide attention. It is not known that the facts as given by Mr. Cockran have even been published before, and they must be regarded as little short of sensational.
